

UKU CLAY COLOR CHART

Natural tones that come alive with light.

Color Chart Applicability: Clay Paint · Clay Marmorino · Clay Stucco · Clay Decorative Plaster – **from mirror-smooth to rustic textures.**

How to Read the Chart: This chart includes 30 shades, each shown with a tone name + % + **Matching NCS codes** are included to **support those working with the NCS system.**

(Please note that UKU's 100% natural earth colors may not match standardized NCS codes perfectly).

All tones are made from natural clay. Lighter shades (10–50%) are blended with white clay, while 100% tones reveal the pure clay color.

Important: Final color may vary depending on application technique, surface texture, and lighting conditions.

We recommend testing a small area before full application.

Digital representations may also differ from real tones.

Samples & Custom Tones: Samples and custom color options are available: info@uku.eu.

Nordic white clay shades

Available across all clay finishes.

NB! Order by color name and percentage.
NCS codes (closest possible matches for system users).
